

# LAFARGE LAKE

Lafarge Lake is a great place for beginners and young anglers. It is conveniently located in Coquitlam and boasts high catch rates, just two of many reasons to visit this lake.

You can be assured of great fishing most of the year. The

heat of the summer can challenge many, and in shallow lakes such as Lafarge, the best fishing can be spring and fall. Thankfully the lake is usually open year-round, so angling opportunities are increased.

Lures and flies are both productive here, and anglers can be rewarded with little effort. A simple cast with a slow, varied retrieve can be enough to interest the trout.

There are carp in Lafarge Lake, and this challenge can reward patient anglers. Working on this species, anglers will want to know that carp tend to “try out” their prey before they commit. When a carp goes after your fly or lure, you’ll want to be ready.

Catchable sized trout are stocked regularly in Lafarge Lake, and this is also the site of frequent family fishing events. In

June, for Family Fishing Weekend, head out to local lakes for great opportunities to introduce the kids or grandkids to a fabulous pastime. It’s lots of fun and prizes are awarded.

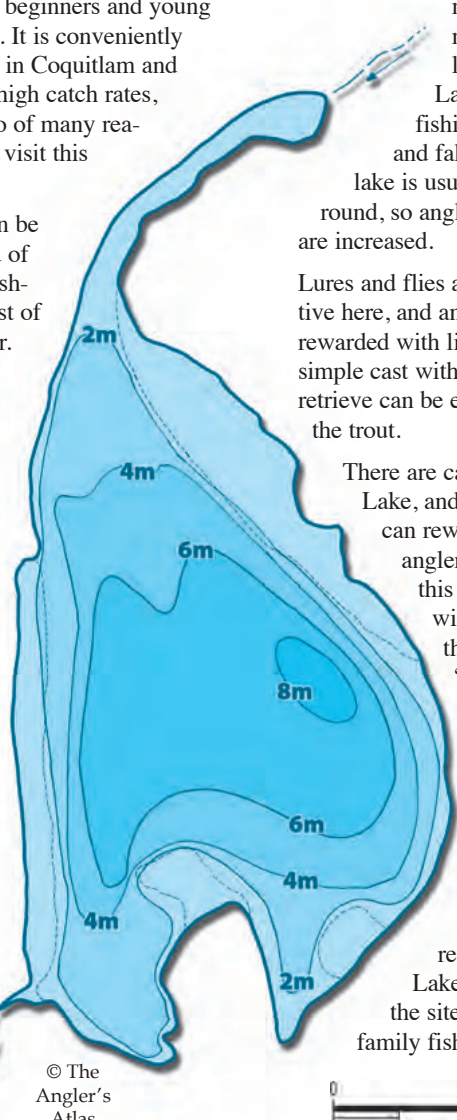

For more information visit the Freshwater Fisheries Society of B.C. at [gofishbc.com/learntofish/default.htm](http://gofishbc.com/learntofish/default.htm) and click on the calendar for June. The Freshwater Fisheries Society also stocks many lakes in the province with fish. Check out the stocking tables, included at the end of this guide. Also please consult the fishing regulations for updated quotas for.

## LAKE ACCESS

North of Coquitlam Centre Mall, Lafarge Lake is located at 1299 Pinetree Way in the Town Centre Park.

A paved pathway circles the lake. There is a sandy beach area on the north side. The south side is rockier, though still accessible.

Now members of the **Angler’s Atlas** can “follow” their favourite lakes! Get new information about your local lakes as soon as it’s posted. Have something to say? Post to the pages of your favourite lakes and share videos, current conditions and tips to help out your fellow anglers. Visit [anglers-atlas.com](http://anglers-atlas.com) for more information.
